

Wong Rong Sheng

Computer Science Intern

About Me

As a dedicated Year 2 Computer Science student at Asia Pacific University, I'm deeply interested in all aspects of computer science. Eager to apply my academic learning in practical settings, I aim to enhance my skills through hands-on experiences. With a solid foundation in programming and problem-solving, my goal is to contribute to innovative projects and advance in technology. I'm seeking an internship to apply my knowledge, learn from experts, and support impactful projects.
